The Maersk Group is a worldwide conglomerate that operates in some 130 countries with a workforce of over 89,000 employees. Owing one of the world's largest container shipping companies, Maersk is involved in a wide range of activities including shipping, logistics and the oil and gas industry.

Background Information: Maersk wanted to provide employees and managers with a fast and location-independent way to access digital HR services.

By implementing the Gavdi Mobile Suite, Maersk employees now have the opportunity to execute HR processes through their mobile phones and tablets, using technology fully integrated with SAP HCM.

Delivery

- iOS app deployed in the Maersk App Store

Why Gavdi?

- Expertise in SAP HCM
- Capabilities in the latest mobile technology

Benefits

- Productivity gains
- Increased data quality
- Modernized user experience

Project Time

Started: April 2014

Live: November 2014

Functionality

- Employee Self-Service
- Manager Self-Service

Result

A mobile (iOS) HCM solution supporting elements of Employee- and Manager Self-Service, including end-to-end Performance Management.
