

Taking Control of your Digital Assets

Your business produces an ever growing amount of information critical to your success in an increasingly complex regulatory landscape. In response to these ever growing business requirements, Gavdi have developed a cloud solution – “Gavdi Easy Archives” to address the ever growing demand for archive management systems.

Gavdi Easy Archives is the perfect solution for the archiving and storage of confidential documents - You decide who has access to relevant documents, while we ensure your access is easy and seamless – regardless of the storage platform you use.

GDPR Compliance

Flexibility

Confidentiality

Permission Rights

Accessibility

Storage Option

Gavdi understands the importance of protecting your business records and information. We are committed to helping our customers control their information management processes by storing their documents securely, whilst still providing them with easy access to files and documents when needed.

Featured Benefits

- Archive bulk documents with a single click
- Role based permissions
- File, retrieve and manage all of your documents in a single place
- Designed to meet your ever-increasing storage requirements
- Enables documents to be stored and tagged in accordance with company policy
