

## Centralising the way HR departments create, manage and process employee documents

Every day represents a new set of people-process-technology challenges for HR professionals. From the time a prospective employee first comes into contact with an organization to the time they leave or retire, HR professionals must deal with an array of documents and processes that span the entire duration of an employee life cycle.

### SAP Cloud Platform

Built on the SAP Cloud Platform, Gavdi Easy Documents provides an innovative, user-friendly application which enables HR professionals to redefine different document types and variations of a document, eliminating the need for multiple versions of document types.
