

Inmarsat enhancing global employee engagement with Gavdi and SuccessFactors

Inmarsat is the industry leader and pioneer of mobile satellite communications and has been powering global connectivity for more than three decades. Inmarsat has the largest portfolio of global satellite communications solutions and value-added services on the market. Its customers include maritime, governments, airlines, the broadcast media, mining, construction, and humanitarian aid agencies .

Background Information - Inmarsat had already deployed SAP SuccessFactors themselves, but needed a solid partner to help them optimise their initial deployment. After considering several market leaders, Inmarsat chose Gavdi as their partner due to not only our local expertise, but our ability to be flexible in our engagement methodologies.
