

Pets at Home – Ensuring that colleagues are paid accurately and on time, every time

Pets at Home is the UK’s largest pet retailer with over 400 stores across the United Kingdom. Their portfolio of service also includes: The Groom Room at Pets At Home, Veterinary Practices (Companion Care and Vets4Pets), a strong online offer. Pets at Home offers a unique omni-channel proposition for UK pet owners.

Background Information Pets At Home had already deployed ‘mini-master’ for SAP HR for Organisation Management and Personnel Administration, but required a solid partner to help them extend their existing infrastructure for both Pets at Home and their vets practices, supporting organisational growth. After considering several firms, Pets At Home chose Gavdi as their partner due to our SAP payroll expertise, our SAP HCM capabilities and our ability to be flexible and agile in the delivery methodology.
