

The Complete Support Package for SAP People Solutions

At Gavdi, we understand the importance and value of your investment in SAP technology. Gavdi Application Value (AV) is an Application Management Service for customers who use SAP people solutions including SuccessFactors, SAP HCM™ and SAP Payroll. Our AV solution provides cost effective support and ensures that the solutions you deploy are optimal for your organisation. With over 21 years of experience in SAP people solutions, Gavdi is able to make expertise available, on demand, when you need it most.

Gavdi Application Value

Gavdi Application Value consists of a range of support services including Ticketing Support System Management, Release Management Updates, Service Reporting and much more. All of this has been designed and developed in close collaboration with our customers, ensuring that Gavdi Application Value stays relevant, whilst providing an optimal support and maintenance offering.
